## **High speed ferries: Update of information**

At its 7<sup>th</sup> Meeting in March 2000, the Advisory Committee asked the Secretariat to continue monitoring information on high-speed ferries and their potential impact on small cetaceans (cf. AC7 Report, P. 8). The AC agreed that the following definition of high-speed ferries should be used: *All types of vessels (including hovercraft) capable of travelling at speeds in excess of 30 knots*. The data on high-speed ferry connections submitted by Parties in response to the Secretariat's questionnaire are attached. No information was received from non-Party Range States.

Whereas last year six of the ten Parties submitted reports, this year only three reports have been received. The Meeting may therefore wish to consider how this item might be dealt with in future.

- (1) Hoverspeed has stopped her activities in at the end of November 2005. A new operator is expected to start again these activities in 2006. The ships used to be at shore from December 1<sup>st</sup> to February 1<sup>st</sup>. Then 2 ships used to be in service between February 1<sup>st</sup> and May 1<sup>st</sup>, and from October 1<sup>st</sup> and december 1<sup>st</sup>, with each, 3 round trips per day. From May 1<sup>st</sup> to September 1<sup>st</sup>, all 3 ships used to be in service, with each, 3 round trips per day.
- (2) This ship is exploited from March 31<sup>th</sup> to October 29<sup>th</sup> with a round trip from Ouistreham on Friday, Saturday and Sunday, and a round trip per day from Cherbourg (so, 10 round trips per week).
- (3) This ship is exploited from May 22<sup>nd</sup> to October 1<sup>st</sup> with a round trip per day.
- (4) Cf annexes.
