PORTUGAL
National Strandings Network
Coordinated by the ICNF

**Percentage of all analysed *D. delphis* in Portugal
decomposition stage ≤ 3**

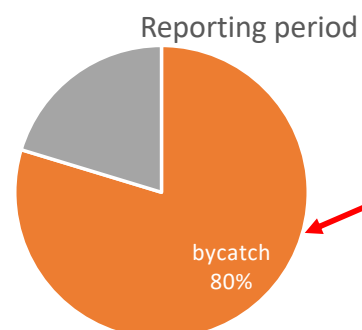

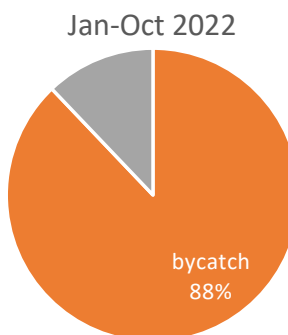

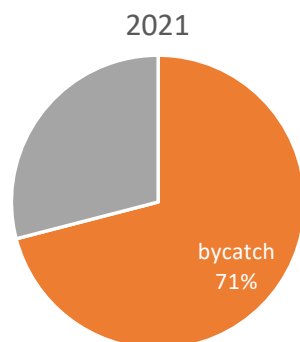

**2/3 of all
analysed DDE**

**Focus on the North area
stranding network**

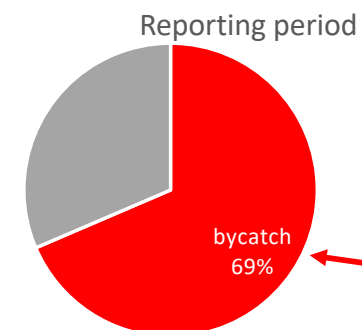

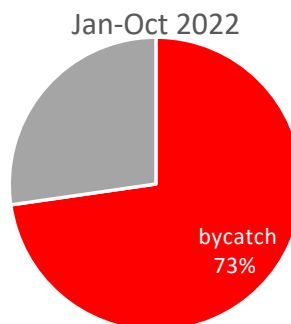

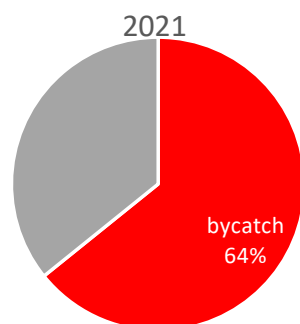

Percentage of bycatch
in *D. delphis* analysed
**in the North of
Portugal**

**In the North area, 80% (of the
analysed DDE) died due to bycatch**

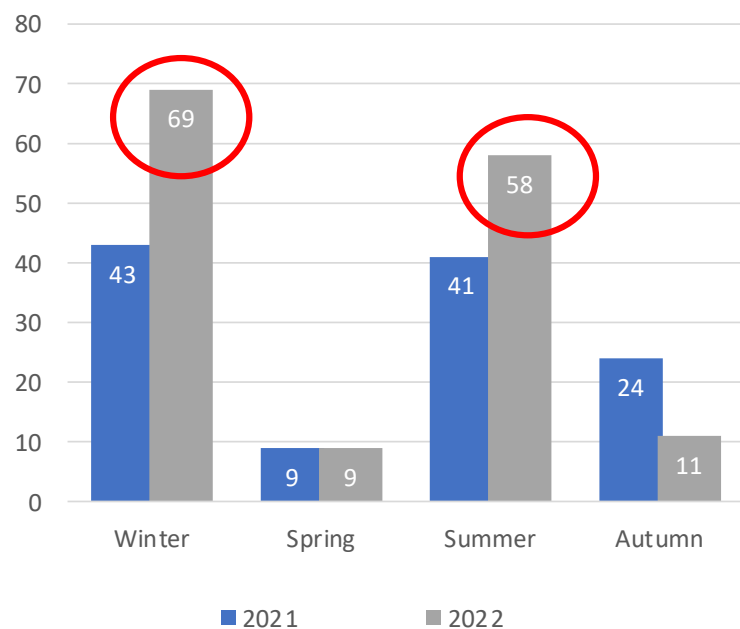

Percentage of
bycatch in all
analysed *D. delphis* in
Portugal

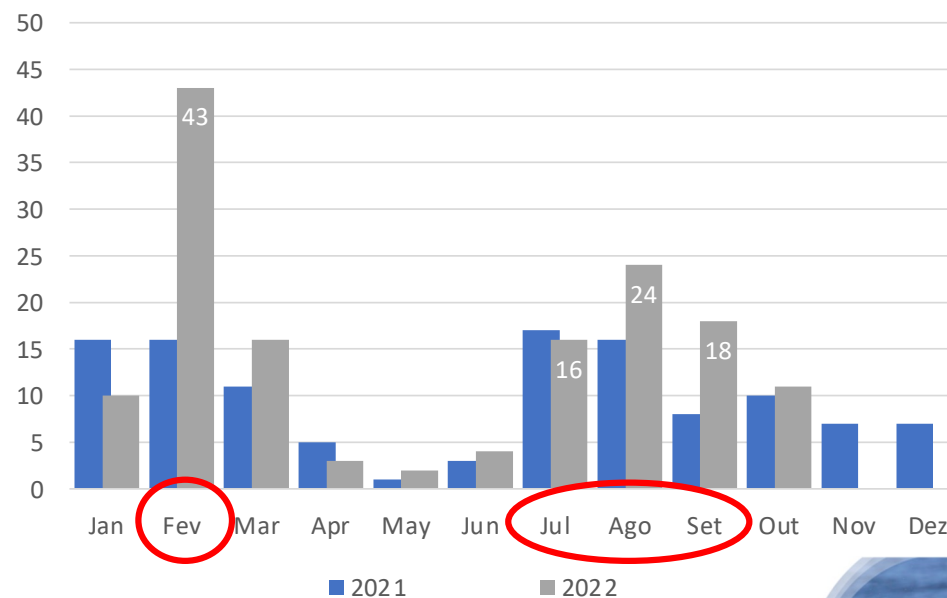

**In PT, 69% (of the analysed DDE)
died due to bycatch**

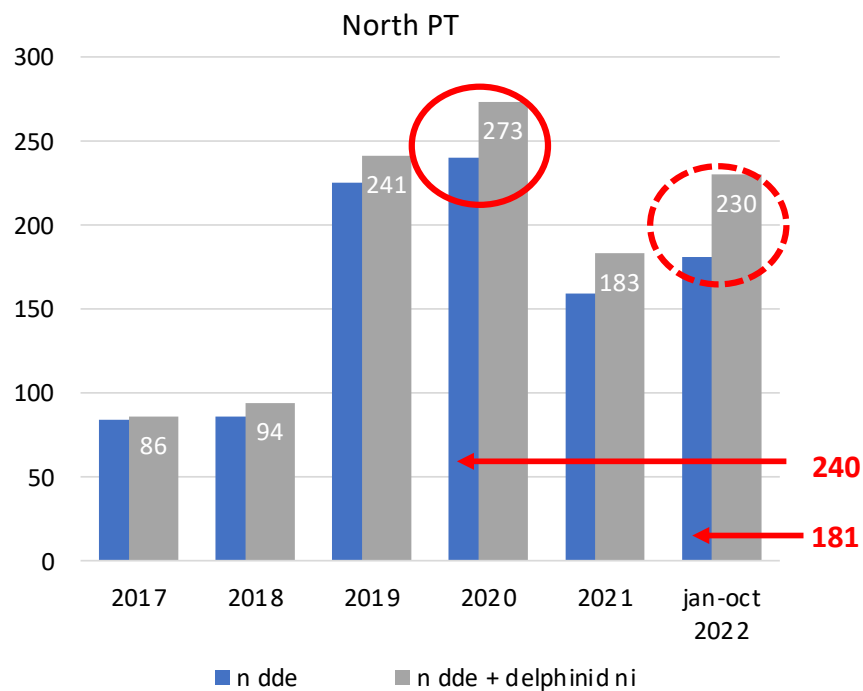

Seasonal number of registered *D. delphis* strandings in the North region of Portugal

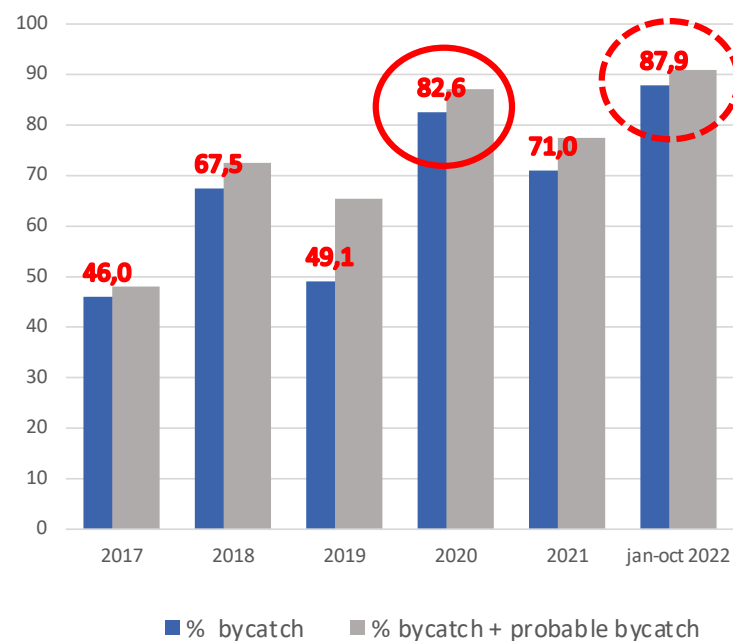

Monthly number of registered *D. delphis* strandings in the North region of Portugal

Number of registered *D. delphis* strandings in the North region of Portugal (2017-oct 2022)

Percentage of bycatch estimated from *D. delphis* strandings in the North region of Portugal (2017-oct 2022)

2019 - Several stranded Dde could not be evaluated
(% bycatch is underestimated)

Mortality preventing measures!

By Gear:
Gill/trammel nets
Beach seine

By Season:
Winter & Summer

By Region:
North coast

3rd Meeting of the Steering Group for the ASCOBANS Species Action Plan
for the North-East Atlantic Common Dolphin (Common Dolphin Group)

Special Thanks to all stranding teams
(RANorte, LVT, Arrojal and RAAIg)

Thank You
